Profile

Frontend Developer with the proven record of developing user-friendly web applications collaborating with cross-functional teams.

Skilled in ReactJS, CSS/HTML, TypeScript & JavaScript, Git, Azure DevOps. Passionate about building interactive and responsive web applications, striving for continuous learning, collaboration and innovation.

Experience

SOFTWARE DEVELOPER TRAINEE

Helsinki
Sievo Oy | May 2023-August 2023

Worked alongside senior software engineers to develop and implement UI components, maintaining existing code using the React and TypeScript;
Gained hands-on experience with Git version control, branching, and merging workflows;
Utilized Azure DevOps for continuous integration and deployment pipelines;
Participated in code reviews, resolved merge conflicts while working with feature branches ensuring code quality;
Restructured the UI & built a first micro-frontend scalable solution based on the mobile-first standard;
Collaborated with UX/UI designers to create pixel-perfect designs utilizing Figma; Participated in design reviews, providing feedback and suggesting improvements from a development perspective (e.g responsiveness features);
Troubleshot FE issues, performed testing & debugging;
Actively participated in Demo sessions, showcasing the functionality, features and improvements implemented during the sprint to the stakeholders of the project;
Effectively communicated with cross-functional teams, including designers, backend developers, and project managers, to ensure project milestones and deadlines were met;
Partnered with other team to develop a blueprint for working on the Qlik Sense community sheets;

Skills: React.js · TypeScript · Cascading Style Sheets (CSS) · HTML5 · Git · Figma · Microsoft Azure · Web Development

Skills :

- JavaScript, TypeScript,React.js, Node.js, npm, Git;
- HTML5/CSS
- Figma;
- Qlik Sense;
- Code reviews;
- Code debugging;
- Collaboration & Teamwork;

Languages :

English (High Proficiency)
Swedish (Intermediate)
Finnish (Basic)

Education :

HELSINKI BUSINESS COLLEGE

Full-Stack Web Developer

Helsinki
August 2021 - June 2023

HTML5 and CSS3 ; UI / UX Design and Prototyping(Figma); Programming JavaScript ; Typescript; Data structures; React & Redux; Node & Express; Unit Testing & Quality Assurance; Continuous Integrations and AWS; Working in a Software Development Team ; Software Development Project (in collaboration with PHZ Full Stack);

ÅBO AKADEMI
UNIVERSITY

**Master of Economics
and Business
Administration - MBA**

Projects

**Software Development Project in
collaboration with PHZ Full-Stack**

*Helsinki
March2022 - May 2022*

**In this project our team
collaborates with PHZ Full-Stack in
order to create a NPS (Net Promoter
Score) application. Such
application enables users to use
the dashboard for creating their
own surveys which could be further
integrated into any web-platform.
An app is created using React.js,
Material UI. Tasks are communicated
through Trello, while code is
shared and maintained via GitHub.**

SENIOR REPAIR SPECIALIST
Helsinki
Swappie Oy | March 2021-February 2023

Ensured smooth and efficient operations of the fast-growing
online marketplace for pre-owned electronics;
Optimised internal processes of iPhone examination and repair;
Performed investigation prior to repair processes, identified
issues & bugs;
Conducted thorough quality checks on products to ensure they
meet the high standards before being listed for sale or
shipped to customers;
Managed the end-to-end order fulfilment process, from
receiving orders to ensuring accurate product selection,
packaging, and timely shipment to customers;
Maintained accurate inventory records, monitored stock levels,
and coordinated restocking efforts to ensure product
availability and meet customer demand;
Identified opportunities to improve operational workflows,
reduce inefficiencies, and enhance overall operational
effectiveness;
Worked closely with cross-functional teams, including customer
support, sales, and warehouse personnel, to ensure effective
communication and alignment of operations;
Arranged workshops and provided guidance for colleagues and
other team members;

FRONT-END DEVELOPER TRAINEE
Helsinki
Tira | August 2022 - November 2022

Collaborated with the senior frontend developer to
implement and enhance user interfaces for web applications
using React and TypeScript;
Demonstrated proficiency in CSS, utilizing CSS frameworks
(Tailwind CSS) to style components;
Participated in code reviews, receiving constructive
feedback from experienced developers to continuously
improve code quality and best practices;
Engaged in daily stand-up meetings to provide updates on
progress, discuss challenges, and coordinate tasks within
the development team;
Applied version control practices using Git to manage code
changes and facilitate collaborative development with the
team;

**Skills: React.js · TypeScript · Cascading Style Sheets
(CSS) · HTML5 · Git · Web Development**
